### AT THE CHURCHES YESTERDAY.

Pastors Back From Vacations--Good Sermons Every where.

Rev. T. E. Wagz filled his regular appointment at Centenary church yesterday morning, following his vacation with an excellent discourse on prayer. A large and attentive congregation was in attendance.

Rev. M. Matsumoto, a native of Japan, addressed a large congregation at Centenary last evening, on the manners and customs of the people of his country. His talk was equally instructive and entertaining, and, at times, harmlessly funny. The speaker has a keen sense of humor, which he brought modestly to light in his illustrations and in his comparisons of the people of the eastern and western hemispheres. Mr. Matsumoto is a student at Vanderbilt University. After graduating there he will return to his country as a missionary.

Rev. R. W. Weaver preached two splendid sermons here yesterday. The first was addressed to a large congregation at the First Presbyterian church yesterday morning and the second to another large crowd at the Baptist church last evening. Dr. Weaver is one of the brightest young preachers North Carolina has produced in the last decade and his sermons are always able.

Rev. T. C. Hodgkin preached at Friends church at all the services yesterday.

Rev. T. M. Johnson, who has just returned from a vacation, preached two excellent sermons to his congregation at Grace church yesterday.

Rev. Mr. Hodgkin being absent from the city, there were no services at Westminster yesterday.

At West Market last evening services were conducted under the auspices of the Light Bearers Society. An entertaining program was rendered by the little folks, assisted by some of the older members of the church.

### THINGS MUSICAL.

Seen and Heard in Greensboro by Mr. J. W. Tillinghast.

I very cheerfully accept The Telegram's invitation to supply a few musical items weekly to its columns. This is not so easy as it may seem, but I believe that with the co-operation of the other musicians of Greensboro it will be quite possible to make a creditable weekly showing of things musical done in our little city. This should serve not only to interest musical people, but to bind together the musical interests of the place and give to their progress that accelerated motion that alone accompanies a combination of forces. I will appreciate any help that may be given me in the way of information about musical events in Greensboro. If you have a musical item of general interest send it in not later than Saturday.

The State Normal and Industrial College, as is pretty generally known, will add a fully equipped piano department, with Miss Laura Brockmann at its head.

Mr. Peacock, of the G. F. College, speaks very hopefully of the coming musical year in his school. His applications to date will utilize the full capacity of his present working force and suggest the possible necessity of an increase in the faculty.

Miss Brockmann has gone to Mt. Airy for a few days' rest.

Clarence R. Brown will leave for a vacation on Thursday, going probably to Philadelphia.

Several members of the Gate City Band are rejoicing in the possession of magnificent new Conn instruments. If a lively interest will make successful band boys will have it.

John B. Wright has a grand piano in stock. That would seem to make an advance in the status of the piano business here.

Mrs. S. H. Campbell, of Pine Bluff, Ark., a sister of Mrs. John Broadnax Jr., of this city, sang yesterday morning at the Presbyterian church, "Rest," by L. T. Shelton and at the Baptist church at night, "Trust in the Lord," Stibel.

Mr. F. C. Foyle, who has in charge the Lyceum season at the Academy of Music reports 528 of the 600 season tickets sold. This speaks well for Greensboro. Three of the five attractions are concert companies of the better classes.

The Greensboro Orchestra will very soon purchase a double bass.

J. W. Tillinghast.

### School Shoes

For boys and girls. School begins next Friday. Your boys and girls need a pair of shoes. Children's shoes are the most expensive item in the household. This expense can be greatly reduced by buying your shoes from us. We have just opened the cheapest and most complete line of school shoes ever shown in the state. We spent a great deal of time in having this line made up just as we wanted them. Every pair made of solid leather. Prices from 75c. to \$2.00. Read our ad in today's issue. Carolina Shoe Co., 302 South Elm street.

### EVIDENCE FAVORS DREYFUS

The Court-Martial at Rennes Goes On.

### EXPERT TESTIMONY REPORTED.

Many Errors Demonstrated in Bertillon's Calculations--His Unfairness Criticized.

By Cable to the Telegram

Rennes, August 28--Expert Charavay surprised the court this morning by testifying strongly in the prisoner's favor. He was expected to reinforce Bertillon, having heretofore contended that Dreyfus wrote the bordereaux. He testified that he had completely changed his mind, and said he was misled by a striking resemblance in the handwriting of the bordereaux and that of Dreyfus, but that further examination satisfied him that Dreyfus did not write the bordereaux. The generals could not conceal their chagrin.

### BOIS-DEFFRE NOT PRESENT.

Rennes, August 28--Bois-Defre is not present today. It is reported he has deserted the general staff.

Paraf Javal, with the aid of a black board, demonstrated many errors in Bertillon's calculations and criticized the latter's unfairness for not submitting Esterhazy's handwriting to the same test as Dreyfus's.

### One More Retailer.

Chief of Police Scott and Officer Pearce were in East Greensboro yesterday morning, and unexpectedly secured the evidence to warrant the arrest of Mr. William Henry Goss, very colored, upon a charge of retailing. It appears, the chief says, that William has been leading a blind tiger for some time, but the chief has a way of restoring sight to the beast and his leader generally suffers.

### CHAMBERLAIN'S PLAIN SPEECH.

He is Tired of Krueger's Procrastination, and Talks in a Belligerent Tone.

Birmingham, Eng., August 26--In throwing open his own gardens here this afternoon to the members of the Saint Bartholomew Ward Liberal Unionists, Jos. Chamberlain, Secretary of State for the Colonies, was drawn into the most important speech on the Transvaal situation he has made since the adjournment of Parliament. He said: "President Krueger procrastinates in his reply. He dribbles each reply like water from a squeezed sponge. His offers are accompanied with conditions which he knows to be impossible, or he refuses to allow us to make a satisfactory investigation of their nature. I do not think it will be denied that we have exhibited unparalleled patience in the relations between a paramount and a subordinate state.

"The situation is too fraught with danger, it is too strained for indefinite postponement. The knot must be loosened, to use Mr. Balfour's words, or else we shall have to find other ways of untangling it. I've been forced to do that, then I would repeat now the words used by Lord Salisbury in the House of Lords. I say that, if forced to make further preparations, if this delay continues much longer, we shall not hold ourselves limited by what we have already offered, but having taken this matter in hand, we will not let go until we have secured conditions which, once for all, will establish us as the paramount power in South Africa and secure for our subjects there those equal rights and privileges promised by President Krueger when the Transvaal's independence was granted.

"If it comes to this, if the rupture which we have done everything in our power to avoid, is forced upon us, I am confident we shall have the support, not only of the vast majority of Britons, but of the whole Empire."

TALK OF A PEACE COMMISSION.

London, August 27--A dispatch from Johannesburg says word has been received from Pretoria that President Krueger and General Joubert favor sending a special peace commission to England, composed of members of the Volksraad, headed by F. F. Reitz, State Secretary.

### Death of a Young Man.

W. H. Willight, a young man aged about 25, died Sunday evening at 6:10 at Mrs. Bodenhamer's boarding house on East Market street. He had been sick three weeks with typhoid fever. His home is in Franklinton, but his body was sent to Raleigh this morning for burial. He had been employed by Albright & Batty in the plumbing business.

### Wanted.

About 20 young ladies to make overalls and pants. Apply at factory on Buchanan street from 6:15 to 6:45 p. m. Hunter Manufacturing Co. Forty-five pairs misses and girls sandals at Thacker & Brockmann's to sell at and below cost.

### NOTES FROM HIGH POINT.

The Local News From Our Neighbor Briefly Told.

TELEGRAM BUREAU  
HIGH POINT, N. C., August 28

M. Matsumoto, a Japanese, will deliver a lecture in the Methodist church here next Wednesday night, commencing at 8 o'clock. No doubt a good crowd will go out and hear what this gentleman from the far east will have to say. Admission free. All cordially invited to be present.

Mrs. L. C. Edwards returned Saturday night from a visit to relations at Henderson. Mrs. Burroughs and child of Henderson accompanied her home for a stay of several days.

Mrs. Ida Beeson, stenographer at Greensboro, spent yesterday at her home here.

Eugene Hicks, of Winston was a guest of this city yesterday.

Rev. E. H. Davis preached an excellent sermon before a good sized congregation in the M. E. church yesterday morning.

Mr. Isaac Hammer, aged 87 years, died yesterday morning at 11 o'clock at his home four miles northwest of this city. The deceased had been an invalid for four years. He leaves four children to mourn his demise: A. R. Hammer, of this city; C. A. and E. A. Hammer and Mrs. Elizabeth Welch, who live close to the old home.

In his death the last one of the pioneer citizens of that neighborhood has passed away. Mr. Hammer was a member of the Primitive Baptist church, a good man respected by all who knew him. Owing to the absence of the pastor the funeral will be preached later. His remains were interred in Abbott's Creek burying grounds this afternoon at 3 o'clock.

Mr. and Mrs. J. S. Rike returned from Norfolk last evening.

C. J. Field, who has a position at Charlotte, spent the day here yesterday.

Wad. Rankin spent Sunday in the city of flowers.

Depot agent Fred N. Tate, of Charlotte, is in the city.

### FALSE JEWELS.

Manufacture to be Carried on in America--Pearls Hard to Make.

Manufacturers of imitation jewelry have lately met with such great success that it is said the sale of genuine jewelry in this city is less than ever before and it is also said on good authority that large amounts of capital are soon to be invested in the manufacture of imitation jewelry. For some time past it has been possible to obtain imitation jewelry in France and England which is difficult of detection by experts; but the business has never been taken up in this country to any great extent.

The principal manufacturers expect to deal in jewels of their own manufacture, which are said to be extraordinarily fine imitations of the real stones, and will have a guaranteed life of twenty years. The "diamonds" are a composition of glass, lead and carbon, tipped with carbon, which is harder than gold. Every real stone, except a diamond, is transparent; without the tip of platinum these "diamonds" would also be transparent, but with it they are given an undetectable resemblance to the genuine stone. These goods are mounted in fourteen-carat gold, and so artistically that when worn, the platinum tipping cannot be seen. An infinite variety of designs, copied from the best real models are shown, and at a price which is about 80 per cent. less than the genuine.

All the colored stones--rubies, sapphires, emeralds, and turquoise--are also manufactured in like way, and are similar, with the exception of the turquoise, to the doublet, except that they are much harder and are made of real stone (garnet) and crystal. They are so hard that the surface can be filed and no bluish mark on the stone. As genuine pearls are the most costly of gems, so the imitation pearls take the lead in price. They are made of fishskin and a secret composition. The manufacture of some especially good imitation pearls, known as "Venetian pearls," is a lost art, the process having been invented by a poor Venetian, whose secret died with him. There are about 10,000 of them in this country, bought in Paris about ten years ago; they are very hard, can be stepped on without sustaining the slightest injury, and will also bounce like a rubber ball. The difficulty in the manufacture of pearls is in obtaining the genuine gems, and it is said that, very often out of 10,000 manufactured few will be marketable, and they are almost as difficult to match for necklaces as the real. A dog collar of imitation pearls, with "diamond" clasps would cost about \$250.

It is said that most of the imitation jewelry business done is with refined women of wealth, who have their genuine pearls served, or buy a novel design which pervades the purpose of a fad as well as the genuine. New York Post.

### TOWN OF DARIEN, GEORGIA

The Scene of the Severe Race Troubles.

### HAS LARGE NEGRO POPULATION

Who Outnumber the Whites Three to One--They Are Generally a Lawless Class.

Special to The Telegram.

Washington, August 28--Mr. M. S. McTyre, of Georgia, is in the city for a few days, stopping at the Riggs house. In conversation Sunday he gave an interesting talk concerning Darien, a small town located just south of Savannah, which is the scene of the race troubles which have been attracting much attention during the past few days throughout the country. The town, according to Mr. McTyre, is located on the Altamaha river, near where that stream enters into the Atlantic ocean. It is a lumber town and has a small white population, who are noted for their industry and thrift, the people being of the better class of citizens, and as a rule law-abiding as any people in the south. The town, however, contains a very large negro population, the latter outnumbering the whites three to one. They are, for the most part, according to Mr. McTyre, the most lawless class, and on account of their numerical superiority over the white citizens, have for many years enjoyed the reputation of being impudent, which has at times rendered it quite unsafe for the white inhabitants.

Mr. McTyre says that a race war, of course is a bad thing, and especially so, as in many instances, the innocent negroes are compelled to suffer for the acts of those guilty of bringing it about. "If only those who are guilty of promoting the trouble got hurt," he says, "there would be no cause for grief." In the end, he says, it will be infinitely worse for these negroes in southern Georgia than it will be for the whites, as they will be able to secure all the aid they need from the neighboring towns. Mr. McTyre thinks that this trouble in Darien will put an effectual stop to future rioting on the part of the blacks in this part of Georgia. He thinks it will also prove a wholesome lesson to the blacks in other parts of the south.

Mr. T. W. Ames, of Charleston, S. C., is at the Metropolitan hotel. He passed through the states of South Carolina, North Carolina and Virginia on his way to Washington, and had the opportunity to make some observations of the crop yield of this section of the country. He acknowledges that this may not be much of a criterion to go by, but says if it is a fair sample of the southern states, that the farmers will not get rich this year.

Mr. Ames' statement regarding the cotton crop is not a very glowing one, and it bears out the statements made by other southern people coming to Washington. He says that the crop is miserably poor, the cotton in many fields being hardly a foot high. He says that he hopes if the yield is small that the prices may be high, for if both the crop and prices are poor, there is bound to be much depression in the cotton section of the south.

A number of gentlemen were in the city Sunday from Richmond, Va. They report that the Mar in sentiment in that city is largely preponderant over the Tyler sentiment, and they say there is no doubt but that Henry County is for the re-election of the senator.

In spite of assertions to the contrary, it can be stated with almost absolute certainty that Frank Hume, the newly nominated candidate for the house of delegates from Alexandria county, will support the re-election of Senator Martin.

The senator was in the city the other day, but had nothing of importance to add to the outlook for the senatorial contest. He is satisfied with his prospects.

Hon. Marj A. Smith, who formerly represented Arizona as a delegate in the house of representatives, is in the city. He has just arrived from Kentucky where he went for the purpose of making a few speeches in behalf of Goebel, the regular democratic nominee for governor. Mr. Smith is of the opinion that Goebel will be elected in spite of the opposition of the Brown faction. He says that Goebel has always fought the corporations in the state, especially the Louisville and Nashville railroad, and that is the real cause of the opposition to him. The laboring people of the state, he says, are for Goebel and will give him a large vote.

Thomas C. Hedrick has been commissioned as postmaster at Somerset, North Carolina.

H. G. Edmunds and his bride, formerly Miss Emma Jordan, have returned from their bridal trip to Atlantic City, and have gone to Richmond, Virginia. They will extend their travels through the states of North Carolina and South Carolina

and perhaps Georgia. Star service has been established in North Carolina from Whiteside Cove, by Effie and Victoria, North Carolina, to Pine Mountain, Georgia. Star service has also been established from Cashiers to Whiteside Cove, North Carolina.

### NEWS FROM WHITETT.

A Long-Needed Rain Falls--Reorganization of Classes.

Whitsett, August 28--Mr. L. C. Wiley, of Danville, Va., was over to see us a few days.

Mr. Walter R. Sellers, of Burlington, came up today to see his friends.

Students are expected today from the Carolinas, Georgia and Virginia.

The rain so long needed in this community came Sunday.

A number from here attended the protracted meeting at Low's church. The Telegram, by being an up-to-date paper, will, it is thought, secure quite a number of subscribers.

W. C. Blogg ran down to Burlington Sunday to see his boy. The professor always comes back with smile on his face.

The senior, junior, sophomore and freshman classes will be reorganized in a few days.

Miss Virginia Shivers, of Rocky Mount, is visiting the family of Mrs. Dora Dick.

The dialectic and athenian societies seem to be progressing, the dialectics having offered a medal to the one who, in the estimation of the judges, had made the greatest improvement. The athenians, however, have not as yet offered any medals, but judging from the late hour they adjourned it indicates much interest.

The big picnic held at McLeonsville last Saturday is like the gala week, a thing of the past. It is with certainty that Whitsett had her many representatives, but how they enjoyed themselves the writer can't say.

### School Notes.

All the city public schools except No. 3 white, will open next Friday. It is very important that all enter on the first day as the work begins on that day.

Examinations for all new white pupils will be held by the superintendent at his office on Wednesday and Thursday mornings of this week from 9 to 12 o'clock; on Wednesday for pupils from 8 to 12 years of age; on Thursday for those from 12 to 21.

On Friday the list of books will be given and the lessons for Monday will be assigned to all pupils holding tickets of admission. As soon as this has been done they will be dismissed till Monday.

All children who failed to get tickets of promotion last session will be examined by their grade teachers on Friday morning.

On Thursday morning the colored principals will examine all new pupils who desire to enter the colored schools. The superintendent will be in his office every morning this week at 9 o'clock to consult with parents or children who wish to see him.

### New Dining Cars.

The Southern has just reached perfection in its dining service between this city and Montgomery, Ala., by putting on the vestibule trains which pass here--southbound at 7:05 a. m., and northbound at 11:45 p. m.--two of the handsomest dining cars made. The cars are 77 feet long, 12 feet wide, accommodate thirty people at one time and have comfortable chairs upholstered in leather instead of the stationery seats formerly used. The cars are illuminated with the Petch gas lights, and the glass ware and silver ware are the purest to be had.

The new cars were manufactured by the Barney and Smith Car Company of Dayton, Ohio.

### TERRITORIAL EXPANSION.

The following editorial on the war situation from the Philadelphia Record is so well written that we reproduce it in full:

It has been determined by the new war department chief that practically all of the volunteers authorized by the act of March 2 last shall be enlisted forthwith. Three additional regiments are to be organized at once, and an order to this effect is to be issued early in the current week. When these troops shall have been mustered into the Federal service the army of the United States will consist of 65,000 regulars and 35,000 volunteers; and of the total number of 100,000 General Otis will have under his command in the Philippines 67,000 men, or about two-thirds of the entire available Federal force.

It was only a few weeks ago—in the closing days of June—that the organs of the administration, speaking with due authority, declared that General Otis needed only 30,000 men for active and effective operations in the Philippines, and that the reports that an army of 40,000 would be dispatched thither were purely imaginative and designed to embarrass the authorities at Washington, who were overrun in consequence with applications for volunteer commissions. But when the war appropriations for the current Government year became available on July 1 the organs promptly began to pipe another tune. The Tagals must be put down in Luzon, the Federal authority fully and triumphantly asserted and every possible precaution taken against a repetition of the farcical attempts at campaigning of last spring when Federal columns were stretched out against the enemy only to be drawn back within the sheltering arms of the Federal war ships' guns. On July 5 an executive order calling out ten regiments of volunteers was issued, and the pretense of economy in men and money was practically abandoned by the war department. A new secretary of war was installed in office, and on August 17 a call for ten more regiments of volunteers was issued. Additional transports were purchased or chartered, and the people were told that by the beginning of the new year the entire force available for the suppression of the armed insurrection in the Philippines would be ready for military duty in that quarter.

Somebody blundered, clearly enough in assuming at the outset of the Tagal insurrection that 25,000 or 30,000 Federal regulars and volunteers would be sufficient for the work in hand on Luzon Island. The American people are now asked to take on trust the revised estimate of these same blunders as to the proper measure of the force necessary for the assertion of Federal authority in the Philippines. If the 67,000 troops to be placed under General Otis' orders shall prove too few, congress, which will be in session before hostilities can be resumed, may easily add to the number. An army more than double the strength of that employed in the spring campaign ought to be sufficient, according to the judgment of the war office experts. But they don't know exactly what the troops will have to encounter, nor what proportion of the army will be

required to hold captured points. The administration, in short, is learning how to conquer an insurgent enemy much as a child learns its first object lessons at school, by painful and repeated efforts.

But for the valorous conduct of our soldiers under all the wretched conditions of warfare enforced upon them in the Luzon campaign, the sheer incapacity of the war office to deal with the insurrection in its incipency would have unquestionably caused a revolution of feeling in the public mind. Pride in the achievements of our troops, however, has overcome any feeling of resentment against the shallow incapables who pattered so long and so fruitlessly over the Filipino problem, and the enlistment of the last man and the expenditure of the last dollar authorized by congress for war purposes will be earnestly approved on all hands. We are all Jingoes together when it comes to the assertion of federal power against armed revolt, whether near at hand or far away.

The cost of this new departure in the field of military expansion will be enormous. The war office is spending money at the rate of \$200,000,000 a year, although the available appropriation upon which it may draw is but little more than \$80,000,000. There will be a deficiency, at this rate, by the time congress shall have met in regular session next winter. The entire war budget will have to be overhauled, remodeled and enlarged, and new sources of Federal income must be found to supply the additional funds which will be required. The policy of territorial expansion implies and involves, first of all, the expansion of taxation throughout the land.

A request has been received by Surgeon General Sternberg from the Director General of the Army Medical Service of Great Britain for three hundred copies of a War Department publication called "Sanitary Lessons of the War." It is the intention of the British authorities to distribute the work among the medical officers of the British army, and the request for the publication seems to be regarded as quite a compliment by our Surgeon General's Department. Perhaps it is, and perhaps it is not. We often learn most from the mistakes of others, and the early history of our camp and hospital management during the war with Spain may be considered very useful in Great Britain as an exposition of how not to do it.

It is very gratifying to learn that contributions of food, money and clothing for destitute Puerto Ricans continue to come in generous quantities to the various depots and committees arranged to receive them. According to an official report just issued by the President of the Superior Board of Health at San Juan de Puerto Rico there have been 2312 burials of victims of the recent hurricane; one thousand families are missing, together with their houses, and the number of destitute persons is 250,000. It is estimated that 25,000,000 pounds of rice and beans and 4,250,000 pounds of codfish will be required to permit the distribution of rations of one pound per day until the crops can be gathered, seventeen weeks hence; and the cost of these supplies would be enormous. The need of aid is, therefore, still great, and will continue to be urgent for months to come.

According to Col. Fred A. Olds, they have lots of carriages and other vehicles at Hendersonville which will take one anywhere one wants to go for the small sum of five cents. In Raleigh, Greensboro and other places the drivers charge twenty-five cents, and the Hendersonville man makes more money

because he hauls six or a dozen passengers where the Raleigh and Greensboro fellow only hauls one. This is not the beginning of a crusade against the hack-drivers or reform in the street transportation business. It's only an observation, and one which might be considered with profit by the hackmen.

### Don't buy an umbrella on a rainy day. They're liable to be up then.

Hamilton Clarke, of Chauncey, Ga., says he suffered with itching piles twenty years before trying DeWitt's Witch Hazel Salve, two boxes of which completely cured him. Beware of worthless and dangerous counterfeits. Howard Gardner.

### It's funny that a physician pays the most visits to patients who are "neered."

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. C. E. Holton will refund your money if you are not satisfied after using it. It is every where admitted to be the most successful remedy in use for bowel complaint, and the only one that never fails. It is pleasant, safe and reliable.

### When a fellow has been relieved of his pocketbook he doesn't allude to it as a relief.

Irritating stings, bites, scratches, wounds and cuts soothed and healed by DeWitt's Witch Hazel Salve, a sure and safe application for tortured flesh. Beware of counterfeits. Howard Gardner.

### "After all," remarked the busy bee as it entered the hive, "there's no place like comb."

"Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse until we used One Minute Cough Cure—it relieved at once and cured her in a few days."—B. L. Nance, Prin. High School, Bluffdale, Texas. Howard Gardner.

All weak places in your system effectually closed against disease by DeWitt's Little Early Risers. They cleanse the bowels, promptly cure chronic constipation, regulate the liver, and fill you with new life and vigor. Small, pleasant, sure; never gripe. Howard Gardner.

### Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreary condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

### No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

**Is It Right for an Editor to Recom-**

**mend Patent Medicines?**

From Sylvan Valley News, Brevard

N. C.

It may be a question whether the

editor of a newspaper has the right to

publicly recommend any of the vari-

ous proprietary medicines which flood

the market, yet as a preventive of

suffering we feel it a duty to say a

good word for Chamberlain's Colic,

Cholera and Diarrhoea Remedy. We

have known and used this remedy in

our family for twenty years and have

always found it reliable. In many

cases a dose of this remedy would

save hours of suffering while a physi-

cian is awaited. We do not believe

in depending implicitly on any medi-

cine for a cure, but we do believe that

if a bottle of Chamberlain's Colic,

Cholera and Diarrhoea Remedy were

kept on hand and administered at the

inception of an attack much suffering

would be avoided and in very many

cases the presence of a physician

would not be required. At least this

has been our experience during the

past twenty years. For sale by C. E.

Holton, druggist.

**Catarrh.**

Catarrh is one of the most obstinate

diseases, and hence the most difficult

to get rid of.

There is but one way to cure it.

The disease is in the blood, and all

the sprays, washes and inhalings avail-

able in the world can have no permanent

effect whatever upon it. Swift's Spe-

cific cures Catarrh permanently, for it

is the only remedy which can reach the

disease and force it from the blood.

Mr. B. F. McAllister, of Herndon, Va.,

had Catarrh for years. He writes:

"I could see no improvement whatever,

though I was constantly treated with spray-

ing, in fact, I could feel that each

winter I was worse than the year pre-

vious. Finally I was brought to my knees

matter, I decided to try Swift's Spe-

cific. I expected to be cured by the first

### A CAPITAL CASE.

State vs. Robert Rankin and Rufus Alston Being Tried.

The case of state vs. Robert Rankin and Rufus Alston—the last and most important on the criminal docket—was called immediately after court convened this morning and preparations for the trial were immediately begun. Rankin and Alston are colored boys, aged 19 and 18 years respectively, and are charged with the rape of Roberta McMurray, a ten-year-old colored girl. The alleged crime was committed on the 25th of last July.

In the trial which is progressing today, the defense is represented by Col. John A. Barringer and G. S. M. Bralshaw, while Solicitor Brooks is assisted in the prosecution by Adams & Douglas.

The special venire was almost exhausted when a jury was secured at 11:30 o'clock. When the jury had been empaneled, Solicitor Brooks read the bill of indictment. By request of counsel for the defense, all of the witnesses except the ones on the stand were expelled from the court room, so that the defense should have the benefit of the separation.

Mr. Percy Page was engaged to take the evidence in shorthand.

At 11:50 o'clock the alleged victim was placed on the stand and Judge Adams began the examination. The witness was perfectly composed and told clearly how the alleged crime was committed, giving all the details. When cross examined by Col. Barringer she proved hard to handle, flinching only once or twice and nearly always corroborating her former statements. She was always deliberate; showed none of the excitement that she displayed in the magistrate's court a month ago, and often looked the young prisoners square in the face when she was making a damaging statement. Not once did they take their eyes off her.

Col. Barringer finished the cross examination at 12:50 o'clock and court adjourned until 2:30.

The first witness placed on the stand this afternoon was Dr. J. P. Turner who testified as to the condition of the girl on the day after the alleged commission of the crime. Roberta McMurray was called back and was asked a few questions and the state rested its case.

John Clapp, who was bound over with the other two boys, but was released, was the first witness introduced by the defense. He is on the stand as we go to press. The case will hardly be finished today.

Thacker & Brockmann still have in stock several dozen pairs infants and small childrens tan and black sandals which they don't want to carry over and will sell at cost or less.
